FIAT Vehicle Warranty.

Every new FIAT carries a manufacturer warranty of 2 years with unlimited mileage, starting from the date of delivery to the first owner.
The anti-perforation (body corrosion) warranty runs for 8 years. The paint warranty runs for 3 years.

The warranty covers manufacturing and material defects. It does not cover wear items: brake pads and discs, clutch linings, wiper blades, tyres, bulbs and filters. It does not cover damage from an accident, misuse, or a modification not approved by FIAT.

The warranty transfers to a new owner free of charge for the remainder of its term, provided the service book is complete and stamped.

An extended warranty may be purchased before the second year expires: 1 extra year costs 900 dinars, 2 extra years cost 1600 dinars. It cannot be bought after the original warranty has ended.
