GlobalNet Installation and Contract Terms.

Installation. A standard installation is scheduled within 5 business days of signup and takes about 90 minutes. The technician runs the fiber line, installs the router, and tests the connection before leaving.

Contract term. Home plans are offered month-to-month or on a 12-month term. The 12-month term includes free installation and a 5 dollar monthly discount compared to the month-to-month price.

Cancellation notice. Cancelling a month-to-month plan requires 14 days notice through the customer portal. Cancelling a 12-month term early incurs an early termination fee of 10 dollars per month remaining, capped at 100 dollars.

Equipment return. The router remains GlobalNet property and must be returned within 14 days of cancellation using the prepaid shipping label provided in the portal. An unreturned router is billed at 90 dollars.

Moving. A move to a new address within the coverage area is free and takes 5 business days to reschedule. If the new address is outside GlobalNet's coverage area, the contract is cancelled without penalty on proof of the move.
