## Ooredoo Business Solutions.

Business mobile. Forsa Business (50 GB, 55 dinars/line/month) with unlimited national calls, and Forsa Business Plus (unlimited data, 75 dinars/line/month). Fleets of 10 or more lines receive a 15 percent discount and a shared data pool, so unused data on one line is available to the others.

Business fibre. Ooredoo Business Fibre 200 (200 Mbps, 200 dinars/month) and Business Fibre 500 (500 Mbps symmetric, 350 dinars/month), both with a fixed public IP address included and a 99.5 percent uptime commitment.

Fault handling. Business faults are answered on a dedicated line, and a technician is dispatched within one business day. A fault open for more than 48 hours is credited at one thirtieth of the monthly fee per day of outage.

Value-added services. Cloud PBX starts at 15 dinars per extension per month. Bulk SMS for customer notifications costs 30 millimes per message with volume discounts above 100000 messages. A managed Wi-Fi hotspot for cafes and hotels costs 40 dinars/month including the access point.

Contracts and billing. Business contracts run for 12 or 24 months, are invoiced monthly in arrears, and can be paid by bank transfer or standing order. A single consolidated invoice covers all lines and sites.
