Universite de Tunis El Manar - IT Services.

Every student receives an account in the form firstname.lastname@utm.com at enrolment. The initial password must be changed within 7 days or the account is locked. A locked account is reopened at the IT desk on presentation of a student card.

Wi-Fi. The campus network is eduroam. Connect with the full university address and the account password. Coverage includes all lecture halls, the library and the student restaurant, but not the residences.

Each student has 15 GB of cloud storage and a mailbox of 2 GB. Exceeding the mailbox quota blocks incoming mail until space is freed.

Off-campus access to the digital library requires the university VPN. Request it from the IT desk; it is granted to Master and doctoral students only.

The IT desk is in Building C, room 12, open 9am to 4pm on weekdays. Password resets are done in person only, never by telephone or email.
